DETAILED ACTION

1. Do to minor errors in the specification, an examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Drawings

Fig. 4 should be labeled --prior art--.

In the Specification

On page 10, line 18, "mn" change to --mm--.

2. The following is an examiner's statement of reasons for allowance: The transmission line for transferring a modulating signal with the claimed impedance values is not shown or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references 6057954, 5602672, 5781578 show similar structures for an electro-absorptive modulated laser but do not show the instant inventions claimed values for the impedance.
